Motel, and Restaurant Management

profile

I have a passion for creating beautiful web applications where I can express my creativity and potential. Ever since I have started to learn programming I was aiming to perfection. Coding for me is more than knowledge, it is the opportunity to help others, share and grow together as one community.

skills

HTML5	jQuery	GitHub	VSCode
CSS3	Firebase	Responsive Web Design	
Sass	React	Web Accessibility	
Javascript	Git	Working with APIs	

projects

KOMBUCHA LAB
REACT | FIREBASE

Created an e-commerce app that allows user to select an unlimited amount of specific items and add them to the card. The app was built with the React library in conjunction with the Firebase database.

TRAVELASK
JQUERY | DARKSKY/REST COUNTRIES API

JQuery application built remotely through paired programming. Travelask app allows user to track down all of the most important information about your travel destination at the click of a button.

VSCODE SHORTCUT PRO
JQUERY | SASS

Built an interactive learning quiz-game that will help user to learn shortcut commands in VSCode editor. Built with jQuery & Sass.

experience

NAIL AESTHETICIAN AT RITUAL HAIR SKIN BEAUTY
SEP 2019 - MAR 2020

I was delivering high-quality service to customers. Assisted in promoting the spa's retail offerings by recommending a variety of care products.

NAIL AESTHETICIAN AT MAJESTY'S PLEASURE
JUL 2016 - JUL 2019

Worked closely with a team to ensure we provide equivalent customer services. An important aspect of my duties was to build and maintain client relationships through exceptional customer service.

CALL CENTER OPERATOR AT UNICALL CENTRAL AND EASTERN EUROPE
AUG 2015 - JAN 2016

The main responsibility was to ensure the highest standards of customer care. Fluency in multiple languages helped me to collaborate with others and contribute more to product development.
