- JavaScript:
The Hard Parts, v2 created by Will Sentence
- JavaScript:
From Fundamentals to Functional JS created by Bianca Gandolfo
- Beginner JavaScript:
Master Package (BJS2) created by Wes Bos
- The JavaScript 2020 Crash Course by Reed Barger

YULIANA HAZDA

FRONT-END DEVELOPER

profile

I am a Web Developer with a passion for creating beautiful web applications to express my creativity. Coding is a way to express myself, solve complex problems and something new and exciting to learn every day. It gives me the opportunity to help others, share and grow together as one community.

skills

HTML5	jQuery	GitHub	VScode
CSS3	Firebase	Responsive Web Design	ES6
Sass	React	Web Accessibility	GraphQL
Javascript	Git	Working with API's	Apollo Client

projects

[KOMBUCHA LAB](#) | [GITHUB](#)
REACT | FIREBASE

Created an e-commerce app with a variety of kombucha drinks. This app allows user to select products of choice and add them to the cart.

[TRAVELASK](#) | [GITHUB](#)
JQUERY | DARKSKY/REST COUNTRIES API

JQuery application built remotely through paired programming. This app allows user to choose a country from the dropdown menu and get the most important information about your travel destination (weather, currency, language, capital).

[VSCODE SHORTCUT PRO](#) | [GITHUB](#)
JQUERY | SASS

Built an interactive game that helps user to learn shortcut commands in VScode editor.

experience

- **WEB DEVELOPMENT STUDENT/GRAD AT JUNO COLLEGE:**
 - For 9 weeks starting on May 11, I was in a full-time immersive Bootcamp.
 - I have completed over 300 hours of class time, 6 projects with a 1 week turn around time.
 - I participated in paired and mob programming, conducted code reviews and gave many presentations.
 - I also have remote working experience as the entire program was delivered online.
- **CALL CENTER OPERATOR:**
UNICALL CENTRAL AND EASTERN EUROPE | AUG 2015 - JAN 2016
 - Achieved high customer satisfaction by resolving customer issues and managing large amount of inbound and outbound calls.
 - Managed and updated customer databases (CRM) and met personal targets of selling 10-15 units daily.
 - Fluency in multiple languages helped me to collaborate with others and contribute more to product development.
